## **B. THE COMPLETE FAILURE OF THE BSP GOVERNMENT**

The Congress Party believes that the BSP government has failed on ALL fronts

The Outgoing State Government has instead ensured a systematic siphoning of the State's resources to ensure the personal enrichment of its members who have turned governance into a cynical business

### **Corruption has reached its peak:**

- The State of Uttar Pradesh has been shocked and shaken by scandals. Implementation of Central Schemes has been turned into a loot
- Rs 5,000 crore meant for provision of healthcare to the rural poor have been siphoned off by the State government
  - o CBI has, on the instructions of the Court, had to step in to investigate the irregularities in the National Rural Health Mission
  - o In a clear indictment of the BSP Government and the Chief Minister, the Comptroller and Auditor General of India has found a mega-scam to the tune of Rs 5,000 crores in implementation of National Rural Health Mission and submitted its Report to the Governor
- Scams in implementation of the flagship Mahatma Gandhi NREGA Scheme of the Central Government have been found across UP, including Balrampur, Gonda, Mahoba, Sonbhadra, Sant Kabir Nagar, Mirzapur and Kushinagar districts
  - o The Chief Minister has ignored demands for a CBI probe into the MNREGA scam, clearly indicating that the State government has a lot to hide
- Similar grave irregularities have been found in the discharge of almost every other Centrally funded scheme
- Cases of corruption are still pending against the Chief Minister in Courts
- 31 ministers of the State Government are being investigated by the Lokayukta
- 21 ministers have been made to resign in the last few months after being given a free reign for corruption for 4.5 years
- Voices raised in opposition are being suppressed using brute force and violence:
  - o Two Chief Medical Officers have been murdered and a Deputy Chief Medical Officer died under suspicious circumstances when in the custody of the State Government. Another Officer committed 'suicide' in the last few days
  - o A senior police officer manhandled and forcibly dumped into a mental asylum after he took on Chief Minister by alleging massive corruption in the state

### **Complete Breakdown of law and order situation:**

- Murders are becoming bolder and more brutal
- Police Stations are not accessible to the weaker sections
- Increase in the cases of dacoity, murder and kidnaping in the state
- Many dalits and backward classes have been victims

### **Crimes, especially against Women and Children, are rampant:**

- Increase in the cases of rape and murder of women and children
- Shamefully, some of the accused are members of the ruling party
- Attempts made by local authorities to cover up evidence
- Alarming increase in the rate of female infanticide
- Sex ratio has assumed disturbing proportions with only 910 females against 1000 males

### **Forced Acquisition of Land:**

- The State Government has forcibly acquired huge parcels of land belonging to poor farmers for the benefit of private developers
- No hearing given to poor farmers and land snatched away without regard to impact on livelihoods
- Adverse impact on livelihoods of not just landowners but also those working on the land
- Pitiful amounts paid in the name of compensation and the land has been resold for multiple times the values

### **Huge Misuse of Public Funds:**

- In addition to the mega-scams, there has been major misuse of public funds by in almost every scheme it is clear that money sent by the Central Government for the People of Uttar Pradesh does not reach the people, due to the corruption and mismanagement of the State government
- A package of Rs. 7000 thousand crores for development of Bundelkhand had been announced by the Central Government in November, 2009. However, this has been plagued by corruption of the State Government, and only 20 to 25% of money has been utilized by the State Government
- Over Rs. 2500 crores have been spent on parks and memorials instead of on much needed schools and hospitals
- Thousands of trees have been uprooted to make way for huge statues of the members of the ruling party, including the Chief Minister

**Farmers have been cheated on every front and Cooperative Sugar Mills have been sold at throwaway prices:**

- Government and Cooperative sugar mills are been sold to the private parties at throwaway prices
- Fertilizer distribution has gone into the hands of the mafia run by the karyakartas of the State ruling party and farmers are being asked to pay exorbitant prices for fertilizers

**Infrastructure, especially power and roads have deteriorated beyond belief:**

- The power situation in the state is very dismal, with power-cuts up to 20 hours a day. As a result common citizen is suffering, agriculture is in crisis and industry is leaving the State
- No attempts have been made to increase generation
- Shortage of power in the state has arisen from 500 MW to 2000 MW
- This is despite the fact that Plan outlay for the State had been increased by almost three times in the 11<sup>th</sup> Five Year Plan
- Roads are in a state of total disrepair sadak kam, gaddhe zyada. In many cases, road works have happened only in State government files, while no roads have come up on the ground

**Livelihoods and Jobs are being snatched away:**

- Unemployment has reached its peak. Unemployed youth are being forced to migrate out of Uttar Pradesh to find jobs
- Lakhs of government jobs which could be given to the unemployed youth of UP are lying vacant, leading to acute shortages of teachers, doctors, nurses and other government servants
- The state has failed to capitalize on the growth of IT and services sectors, as has been done in neighboring States
- Handloom sector involving thousands of weavers is in crisis. Thirty two spinning mills have been closed and therefore raw yarn is not available to the weavers

**Deaths due to Poor Sanitation:**

- Basic facilities not provided by the current government even after five years
- Over 400 young lives lost to Japanese Encephalitis in Gorakhpur, Uttar Pradesh
- This is due to a complete failure on the part of the State to provide basic water and sanitation facilities along with a failure to carry out timely inoculation against disease

## **THE BSP GOVERNMENT HAS FAILED DESPITE CONTINUED PRIORITY GIVEN TO UTTAR PRADESH BY THE UPA CENTRAL GOVERNMENT**

- Uttar Pradesh has spent only 65.3% of the total funds allocated to it under the Mahatma Gandhi National Rural Employment Guarantee Act. It slipped to the 12<sup>th</sup> position last year in State ranking
- The State did not fully utilize amounts disbursed by the Centre through the Indira Awas Yojana which seeks to provide affordable housing to the poor. The percentage of houses completed against the target also fell
- Expenditure under the Integrated Child Development Schemes (ICDS) of the Health Ministry came down to 57.7% during 2010-11
- In Sarva Shiksha Abhiyan the State stood at number 12 in terms of percentage of funds utilized during last year
- Under the Rashtriya Krishi Vikas Yojana (RKVY) which is run by the Ministry of Agriculture and seeks to increase production of rice, wheat and pulses, the utilization of funds by the state has slipped to 31.7% in the last 2 years
- The debt burden of Uttar Pradesh has nearly touched the two lakh crores mark. There has been an increase in debt by Rs. 17012 crores in just one year
